RELEVANT PROFESSIONAL EXPERIENCE

Letshego Holdings Limited, Gaborone, Botswana

Jan 2022-Jan 2023

React Web Developer (Remote)

- Meeting with the development team to discuss user interface ideas and applications.
- Reviewing application requirements and interface designs.
- Identifying web-based user interactions.
- Developing and implementing highly responsive user interface components using react concepts.
- Develop responsive web application using React, HTML5, CSS3, and JavaScript, and associated JavaScript frameworks, for desktop, tablet, and mobile platforms
- Work with UX/UI Designers, Architects, and other developers to implement full stack mobile solutions.
- Translating designs and wireframes into high quality code
- Developing and implementing front-end architecture to support user interface concepts.
- Troubleshooting interface software and debugging application codes.
- Monitoring and improving front-end performance.
- Documenting application changes and developing updates.
- Work as part of an Agile Scrum team

Intrinsic Value, LLC, Nashville, TN, USA

June 2019-July 2021

Software Engineer

- Developed a web application's UI/UX and backend for an access control and domestic alert system using **React JS, Node, JavaScript, GraphQL, PostgreSQL, MongoDB, AWS S3** and **Express.js**.
- Extensive and robust research and applying technical knowledge for the website's functionality and implementation of features necessary to the final product. Achieving this saw an increase in investors' interest, resources towards the product and higher demand for the product.
- Full stack development and maintenance of the complementary mobile application using **React Native**.
- Utilized various **JavaScript** frameworks for front-end, **Node** and third-party modules for form validation, geolocation, push notifications, Google Maps API, user login and other interactive features.
